MOST HELPFUL MOST RECENT STAR RATING

Karthik Radhakrishnan reviewed fixedprice.ca — 5★
April 19 at 2:27pm

I had a service from fixedprice.ca, very reliable, as name indicates its fixed, no more surprises after they finish the work, you know upfront how much it would cost which everyone likes that sort of style.
Also working mode is too good, once the date of commitment is made they stick to it. I would definitely recommend for anyone across GTA 😊
I had POTLIGHTS and Washroom reno from them.
Good job keep it going.

Dear Facebook Friends,

If you are looking for any kind of service, from plumber to electrician, this is the place to go! I have used them recently to fix my garage door and the overall experience was EXCELLENT! The garage door technician came on time rather 10 minutes before time. Very prompt service, highly skilled, very professional, very competitive rates and above all very honest person (which matters a lot to me).

The guy was so honest if he would like to cheat me he can easily be. As per my knowledge, my cable was broken because it came out but he said your cable is good only spring is broken, which was clearly visible in two pieces.

Please like the page and share!

Full 10 marks to the person behind this project. Amit, you are endeavoring to help the community in Toronto.

Rapidservice is one of the best platforms for all the services you can think of. I availed their plumbing service which was quick & accurate. It allowed me to connect with various vendors and select the one based out of my availability as well as budget.

I highly recommend rapid service team for all your needs

We had wonderful experience dealing with Amit... We were looking for house cleaning services which are reliable and affordable... Never wanted to go thru kijiji ad you don't trust them and professional cleaners are way above the budget... Fixed Price was able to provide us services which fulfilled out requirement and we are getting this services every week from last month and

night address is an awful pain for us! This is just one example. We are not at all
